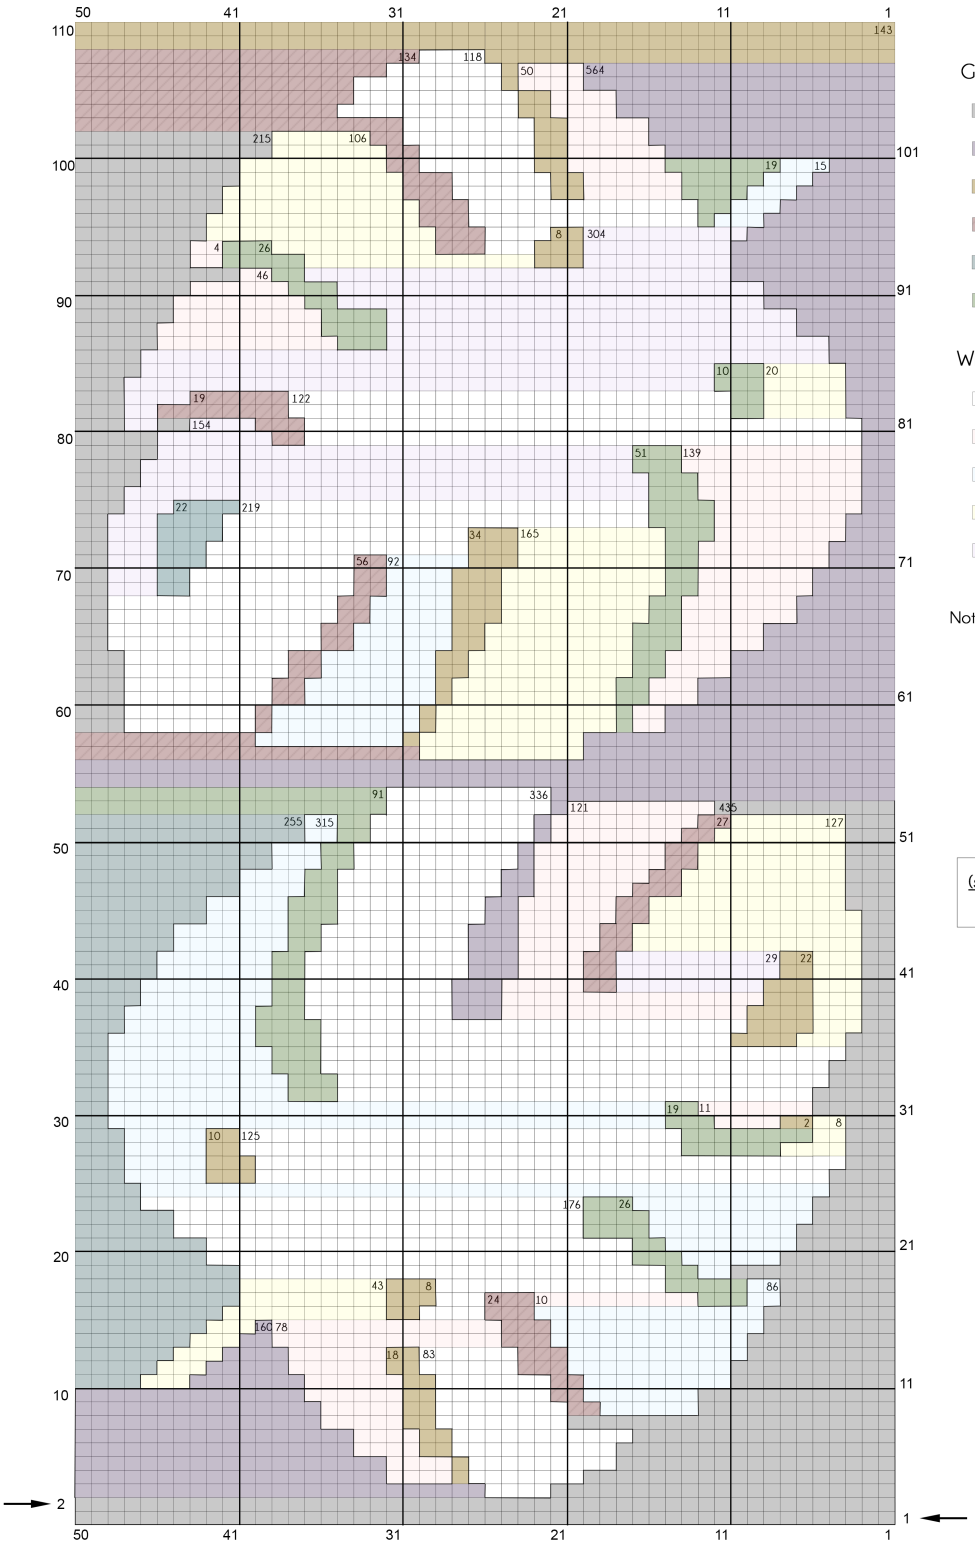
# Monstera Wall Hanging Pattern Chart
# (Designed For Intarsia Crochet)

Designer: Joanne.L

As seen on craftpassion.com



## KEY

Grey

- 650 stitches, 2 areas = _____ yards
- 724 stitches, 2 areas = _____ yards
- 245 stitches, 7 areas = _____ yards
- 260 stitches, 5 areas = _____ yards
- 277 stitches, 2 areas = _____ yards
- 242 stitches, 7 areas = _____ yards

White

- 1179 stitches, 7 areas = _____ yards
- 459 stitches, 8 areas = _____ yards
- 508 stitches, 3 areas = _____ yards
- 469 stitches, 7 areas = _____ yards
- 487 stitches, 3 areas = _____ yards

Note:
1. Measure to determine the amount of yarn (in inches) required to complete a sc stitch.
2. For each area, leave an extra 8" (4" on each end) to be used for weaving in the yarn tail.
3. Include a safety factor for unforeseen errors of at least 10% (multiply by 1.1).

### Yarn length in yards for each ball

$$\frac{(\text{stitch nos. x stitch length}) + (\text{areas x } 8)}{(12 \times 3)} \times \text{safety factor}$$

Example calculation:
- Using 650 stitches and 2 areas as an example.
- Approximately 3" of yarn is required to make a sc.
- Apply a safety factor of 1.1.
- The total amount of yarn required for these two areas is calculated as follows:

$$= \frac{(650 \times 3) + (2 \times 8)}{(12 \times 3)} \times 1.1$$

$$= \frac{(1950) + (16)}{(36)} \times 1.1$$

$$= \frac{1966}{(36)} \times 1.1$$

$$= 60 \text{ yards}$$
